5. Fully charge the battery

The micro-USB connector is pointed by the red arrow as shown below.

- Connect micro-USB connector to GT-200 and USB connector to a 5V USB power source. Use **USB 3.0** port if PC/NB.

- Orange LED is ON during charging.
- Orange LED is OFF as charging is done.
- Battery low: orange LED blinks once every 5 seconds

8. Speaker

9. Internet Button for Setting

The internet button is pointed by the red arrow as shown below.

- The internet button is to connect to the Internet for setting of the tracker from APPs.
- Press the internet button by a thin pin.
- Green LED blinks for 5 minutes after it is pressed.

6. SOS button

- Pressing SOS button will make calls, send SMS to preset phones, and send SOS message to cloud.
- As SOS is on-going, the orange and green LEDs blink alternately.
- This button could also be used to hang up current call or pick up an incoming call.

7. Microphone

10. Install APP - helpYou24

IOS 8.1 above

Android 3.0 above

- Scan the QR code using your smartphone. Open the scanned web, install the APP.
- The installation of APP will be completed within a few minutes.

11. Run the APP, Login and Live View

- Tap the camera icon , scan the QR-code on the back of OT-3G-08 and then tap “Login”.
- When in **Live** view, grey icon means the tracker is offline while color one is online.

12. Change Password and Update Profile

- Users are highly advised to change the default Password to something secure upon the first login. The length of Password is 4 to 16 bytes.
- **Setting→Password**
- **Setting→Profile→fill Alias, Gender, Birthday, Address, and Contact.**
- The min length of **Alias** is 9.
- **Alias** could also be used as the user name for Login. It could be in any language.

13. Add a member in the group

It's very easy to manage multiple OT-3G-08 s in a single login account. All group members could be tracked simultaneously (Group Tracking).

- Key in a **NEW** tracker's login data,
- Or tap the camera icon to scan the QR code of the tracker.
- Tap “Add ” to add the new member in Group.

14. Phone and SMS Settings : SOS Help

- Tick “Screen incoming calls”: These phone numbers are used for Both SOS calls and incoming call white-list. If this option is checked, incoming call from other numbers would be rejected
- If you do not want SMS notification, please do not enable it.

15. Time Interval

- Time Interval: The tracker updates its position once every this time interval.
- Disable: The position will be updated ONLY By Demand or Events.

16. Geo-Fence Tips

17. Cloud Notify

- Suggest to enable all Cloud Notify alert options. It takes small data to notify.
- SOS:
 1. Disable: APP will not receive sound SOS notification.
 2. Normal: APP will repeat 3 times sound SOS notifications within 3 seconds.
 3. Repeat Alarm: APP will stop repeating sound SOS notification until reading the SOS event.

18. Awake

- Check the SIM card phone number of the tracker that you want to wake up and key in it.
- Phone call: Awake the tracker via phone calls. After that, a position of the tracker will be updated on APP.
- Send SMS: Awake the tracker via SMS. After that, a position of the tracker will be updated; meanwhile, confirmed SMS will be sent to callers.
- Upon wakeup, red LED of GT-200 ON and then OFF.

19. Warning

The following suggestions help you protect the tracker device from damage.

- A. Do not expose the device at high electric voltage environment. Otherwise its internal electronic devices may be permanently damaged.
- B. Do not paint the device. It may prevent antennas from receiving signals.
- C. Do not use or store the device in dusty or dirty environment. It may create short circuit and harm the device.
- D. Do not attempt to open the **whole** device.
- E. Do not operate battery beyond published voltage, current and temperature limits.
- F. Do not expose to open flame, incinerate or expose to liquid as excessive heat may generate fire, and electrolyte may leak out.
- G. Avoid contact with electrolyte. In the events of an accident, flush with water.
